immediate assets. This is a safe proportion, and the New-Orleans Banks being able should resume specie payments at the earliest practicable moment. By the official report of the situation of the Bank

South Carolina, it appears that the Circulation is \$123,705, Deposites, \$156,405; Contingent fund to meet losses, \$52.5-3; Specie, \$80,000; Bank Notes, \$21,132; New-York funds at maturity, \$10,639. We see it stated that the bills of the Agricultural Bank

Brewer, Maine, are not redeemed at the Suffolk Bank, but by one of the New-York Banks. We know nothing as to the standing of this Bank, but the fact that it has no fund with the Suffoik Bank, and that it is endeavoring to force a circulation at this distance from home should be suffi cient to render people very cautions about receiving its bills. Like the Stillwater concern and some others, it stay one day or other, after getting a large amount afloat, break and leave its bill holders to take fifty per cent. or perhaps nothing. However their operations are now pretty well enderstood in this acction, and the public have suffered a much that we do not think any Bank could victimize as to a very great extent.

The Ruckersville Banking Company, Ga., has refused to redcem its notes in specie, and is now under protest for nearly \$14,000. The Comptroller has given the Bank notice to , sy the debt or he will proceed against them. If the debt is not paid in sixty days the bonds and mortgages will be sold and the Company would up. The Company is endeavoring to procure an injunction against the Comptroller, on the ground that the helder of the protested notes s a broker. Should the injunction be refused the Bank will probably arrange the matter, in specie or its equiva

M. PROWITT'S CELEBRATED ASTH
H. MATIC POWDER, for the precapt removal and
effectual curse of the asthma and diseases of the lungs.

This certifies that the Asthmatic Powders sold by H. M.
Prowitt, is the best medicine I am acquainted with for the
above named disease, and perfectly safe for the most delicate infant. Colds give way to it almost immadately.

I was so reduced by the Asthma that the ablest physicians
declared my case hopeless. For three years I was incapable of lying down, and what sleep I had, was in my chair;
but on taking a few doses of said powders, I was by a kind
Providence perfectly restored, and for thirty-five years
have been free from this disorder.

I therefore advise all who are afflicted with this distressing complaint to give this medicine a fair trial, since severai of my friends wave found similar relief.
